The application has been amended as follows:

IN THE CLAIMS:

- Claims 38 and 39 – line 6, replace “inner layer of metal foil” with -- polymeric sheet--.
- Authorization for this examiner's amendment was given in a telephone interview with Frank Catalano on 11/8/2004.
2. Claims 32-42 are allowed.
 3. Previously withdrawn claims 32 - 36 and 38 - 42 have been rejoined with elected claim 37. The Examiner has granted allowance of a generic claim (37) and as such applicant is entitled to consideration of claims, which include the limitations of said allowed generic claim.
 4. The following is an examiner's statement of reasons for allowance: While clothing articles containing thermally reflective material is known, the prior art is not seen to teach an article devoid of bonding or adhesion between the thermally reflective inner layer and enveloping cloth. The Examiner has taken the position that along with the lack of bonding between the enveloping layers of cloth and their adjacent layers of metal foil there may be no other material of any of sort between said enveloping layers of cloth and their adjacent layers of metal foil through which attachment of the foil to the envelop could occur.
